

## DETECTIVE

You can't make me go to treatment if I don't want to! The doctors here said I would be free to go in just a few more minutes. (BEAT) I'm fine. I don't need any help, I just didn't know how strong those drinks were. What's the big deal? Can't you tell I'm fine now? It's not like I was smoking meth or something crazy like that. Just dehydration and maybe a bruise or two. (BEAT) I must've fell pretty hard.
